

Vacancy for:  
**Junior Salesforce Developer**

[www.techairos.com](http://www.techairos.com)

**Techairos Consulting** is a small IT company that specialises in providing solutions where several technologies are integrated together.

We are looking for candidates with Computer Science or Engineering degrees.

### Job description

You will be given responsibilities on a variety of projects, depending on your skills and experience.

Possible tasks may include:

- Apex coding (e.g. triggers)
- Workflow rules
- Custom objects and relationships
- Setting up new user types
- Configuring ownership / hierarchies
- Mobile app development using the Salesforce Mobile SDK
- Reports and dashboards
- Data management
- Integration with other data servers

### Apply if you are:

- A **South African citizen**
- Available to attend interviews **in Stellenbosch in person** at short notice (please indicate your current city/town of residence specifically in your application e-mail)
- Early in your career, or a recent graduate, or graduating soon
- Eager to gain experience with SalesForce, in systems design and integration, and different software languages
