

S-PLANE Automation (Pty) Ltd

Automation Innovation

S-PLANE is an internationally recognised aerospace and defence company specialising in product supply and development of autonomous systems and related subsystems. Our focus is fixed- and rotary-wing UAVs and their navigation, flight control and mission management subsystems. Product and development scope spans both the civil and military UAV markets, and also extends to autonomous land, sea-surface and underwater vehicles and their subsystems.

S-PLANE is expanding its workforce to meet the ever growing demands of the autonomous and unmanned systems industry. S-PLANE invites qualifying candidates to submit their applications for the following technical position:
